## Product Designer

mrtyle@proton.me  
1 206 258 9267  
12832 SE 4th Place  
Bellevue, WA 98005

I thrive at the intersection of design, product, and engineering, using a deep understanding of each discipline and more than a decade of experience working cross-culturally to effectively bridge the gap between teams and deliver beautiful, user-centered experiences.

### Work Experience

#### **Khalibre** Phnom Penh, Cambodia

Product Designer 2020 - Present

- Transformed the UX of Khalibre's e-learning and community platform used by international non-profits and government ministries
- Created and maintained a design system for the company
- Trained the team in design thinking and UI best practices
- Worked with design and development to achieve harmony between Figma and Vue 3 component libraries
- Collaborated with the product director to translate business requirements into designs and technical solutions

#### **Ento** Melbourne, Australia

Frontend Developer 2016 - 2019

- Developed responsive workforce management and HR software for managers and staff in React and Redux
- Created mobile apps using Apache Cordova and CodePush

#### **Essence Digital** Seattle, WA, USA

Lead Developer 2011 - 2014

- Built interactive mobile ads in HTML5, CSS, JavaScript, Objective-C
- Collaborated with brands to creatively reach their customers

#### **Associated Students of the University of Washington** Seattle, WA, USA

Webmaster 2010 - 2011

- Designed and built websites and branding for ASUW entities

### Education

#### **University of Washington** Seattle, WA, USA

Human Centered Design & Engineering June 2011

Bachelor of Science
